

Investment Objective: To achieve long term capital appreciation by investing in a diversified portfolio of large-capitalization stocks with growth characteristics greater than the broad markets.

Investment Strategy: LGIM America strives to replicate the risk and return characteristics of the Benchmark Index as closely as practicable, before expenses. To achieve this objective, the strategy invests its assets primarily in publicly traded equity securities. The proportion of securities held will be approximate to the weights of the Benchmark Index. The benchmark, Russell 1000 Growth Index, measures the performance of the large-cap growth segment of the US equity universe.

Investment Management Company: LGIM America was founded in 2006 and is headquartered in Chicago, IL. LGIM offers a range of strategies to help their clients manage their investment objectives, including indexed solutions. They have teams of experienced, innovative professionals committed to helping institutional clients meet their goals, managing investment exposures efficiently to seek enhanced returns while mitigating risks, and working to generate returns while making a positive societal difference.
