

Investment Objective: To achieve long term capital appreciation by investing in a diversified portfolio of International (non-US) equities from both developed markets or countries (DM), and emerging markets (EM).

Investment Strategy: The International Stock Fund employs a hybrid strategy by combining an international developed market index strategy and active strategies in international emerging markets and international small capitalization stocks. It is comprised of: 63.75% LGIM America, 11.25% Artisan Partners, and 25% Acadian Asset Management, LLC. **Acadian Asset Management, LLC** acts as the investment advisor to the Fund (in which SEI is the Trustee), where the investment objective is to seek long-term capital appreciation by investing primarily in common stocks of international small capitalization issuers, including exposure to issuers in the emerging markets. The investment process is systematic and designed to attempt to capture alpha by exploiting behaviorally-based mispricings within and across international equity markets.

Artisan Partners acts as the investment adviser to the Artisan Sustainable Emerging Markets Trust, managed by SEI Trust Company. The Artisan Sustainable Emerging Markets Team employs a fundamental research process to construct a portfolio of emerging market companies. The team seeks to invest in companies that it believes are uniquely positioned to benefit from the growth potential in emerging markets and possess a sustainable global competitive advantage. The investment team leverages high degrees of experience and knowledge within a disciplined investment process.

LGIM America strives to replicate the risk and return characteristics of the Benchmark Index as closely as practicable, before expenses. To achieve this objective, the strategy invests its assets primarily in publicly traded equity securities. The proportion of securities held will be approximate to the weights of the Benchmark Index. The benchmark, MSCI EAFE (Net Return) Index, is an equity index which captures large and mid-cap representation across Europe, Australasia, and the Far East.
