

Investment Objective: To provide safety of principal and consistency of returns while attempting to maintain minimal volatility. The Fund is designed for investors seeking more income than money market funds without the price fluctuation of stock or bond funds.

Investment Strategy: Galliard Capital Management, Inc's Stable Value Fund is primarily comprised of investment contracts issued by financial companies including Guaranteed Investment Contracts (GICs), Separate Accounts GICs, and Security Backed Investment Contracts. GICs are issued by insurance companies which guarantee the return of principal and a stated rate of interest. Separate Account GICs are GICs issued by an insurance company and are maintained within a separate account. GICs are backed by the general account of the insurance company while Separate Account GICs are backed by a segregated pool of assets. Security Backed Investment Contracts are comprised of two components: investment contracts issued by a financial institution and underlying portfolios of fixed income securities (i.e., bonds) whose market prices fluctuate. The investment contract is designed to allow participants to transact at book value without reference to the price fluctuations of the underlying fixed income securities.

Investment Management Company: Galliard Capital Management, Inc. specializes in stable value and fixed income management for institutional investors. The firm is headquartered in Minneapolis, MN. Galliard is an independently operated subsidiary of Wells Fargo Bank, N.A. Galliard's parent, Wells Fargo, is one of the nation's largest diversified financial services companies.
